MAXI**SYS** ADAS

COMPREHENSIVE ADAS CALIBRATION

The powerful Autel MaxiSYS ADAS has evolved beyond the original diagnostic capabilities to offer comprehensive and precise Advanced Driver-Assistance Systems (ADAS) calibration.

- Adaptive Cruise Control (ACC)
- Night Vision System (NVS)
- Around View Monitoring (AVM)
- Lane Departure Warning (LDW)
- Rear Collision Warning (RCW)
- Blind Spot Detection (BSD)

VEHICLE COVERAGE

MaxiSYS ADAS utilizes one test frame for six systems of calibration (ACC, LDW, BSD, NVS, AVM, and RCW), to cover eleven manufactures: VW, Mercedes, BMW, Lexus, Nissan, Infiniti, Honda, Toyota, Hyundai KIA, Ford and Volvo. Different auxiliary tools such as the reflector, night vision device, and Doppler signal reflector are easily attached to the sliding panel on the crossbar. Pattern panels are easily adapted for multiple vehicles.

ADAS TABLET
The 1.3GHz + 1.7GHz hexa-core processor and easy-to-use Android navigation inherited from the MaxiSYS family, guides technicians to quickly complete calibration procedures with step-by-step graphic illustrations. Combined with OE-level diagnostic coverage, MaxiSYS ADAS is a modular system providing new calibrations to be added at any time, enabling a custom tailored system for your needs.

COMPLETE ADAS SOLUTION

MaxiSYS ADAS is ideal for glass replacement business, independent garages and body shops by enabling new repair capabilities to operate more profitably. Compatible with a wide range of camera and radar-based driver assist systems, the MaxiSys ADAS provides modular OE-level diagnostics and calibration that are easily combined based on your repair needs.

Blind Spot Detection (BSD)

Around View Monitoring (AVM)

Adaptive Cruise Control (ACC)

Rear Collision Warning (RCW)

Lane Departure Warning (LDW)

Night Vision System (NVS)

ADAPTIVE CRUISE CONTROL
(ACC) Control system to automatically adjust vehicle speed to maintain a safe distance from vehicles ahead. Control is based on sensor information from on-board sensors.

LANE DEPARTURE WARNING
(LDW) Warns driver when vehicle begins to move out of freeway lane. Designed to minimize causes collisions: driver error, distractions and drowsiness.

NIGHT VISION SYSTEM
(NVS) Uses a thermographic camera to increase a driver's perception and seeing distance in darkness or poor weather beyond the reach of the vehicle's headlights.

REAR COLLISION WARNING
(RCW) Braking at standstill to avoid rear-end collisions. Alert when engine started and cannot turn off. Warn driver of vehicle approach from behind by rapid signal flash.

AROUND VIEW MONITORING
(AVM) Provides a virtual 360-degree scene of the car in bird's-eye view. It assists drivers to park more easily by better understanding the vehicle's surroundings.

BLIND SPOT DETECTION
(BSD) Vehicle-based sensor function that detects other vehicles located to the driver's side and vehicle rear, then post a proximity warning.

THE MAXISYS ADAS KIT

ADAS patterns are organized by vehicle make to allow shops to order tailored packages based on repair requirements.

- VAG-LDW (CSC0601/01)
- BENZ-LDW (CSC0601/02)
- Nissian/Honda-LDW Type 1 (CSC0601/03)
- Honda-LDW Type 2 (CSC0601/05)
- Nissian-LDW Type 2 (CSC0601/06)
- Hyundai-LDW (CSC0601/07)
- Toyota/Lexus-LDW (CSC0601/11)
- VAG- AVM (CSC1004/01)
- Honda-AVM (CSC1004/03)
- BENZ-RCW (CSC1006/01)
- VAG-RCW (CSC0806/01)
- Nissian-RCW (CSC1006/05)

MAXISYS ELITE

ADVANCED ANALYSIS DIAGNOSTIC SYSTEM

The MaxiSYS® Elite Android operating system is powered by Autel's quad-core processor to quickly perform every job from comprehensive vehicle diagnostics & analysis to advanced ECU programming. The larger battery size and included docking station provide convenient charging with intelligent power saving to eliminate charging concerns. The Elite comes with 2 Years of FREE software updates and a 2-Year warranty to provide complete coverage.

FREE MINI BLUETOOTH VCI

POWERFULL HARDWARE

The MaxiSys® Elite sets a new standard in diagnostic scan tools providing unsurpassed speed and reliability. The quad core 1.8 GHz processor paired with a 32 GB solid state hard drive makes the Elite faster than any comparible device. Quicker tool access, allows technicians to quickly pinpoint vehicle faults and perform OE-level diagnostics with greater ease.

EFFICIENT SOFTWARE

The MaxiSys® Elite mobile powerhouse offers the fastest WiFi and Bluetooth protocols to make this the ideal, shop-friendly diagnostic scan tool. Quicker tool connections, enable technicians to quickly perform Auto-Vin Scans, ECU Coding and Flash programming with greater speed.
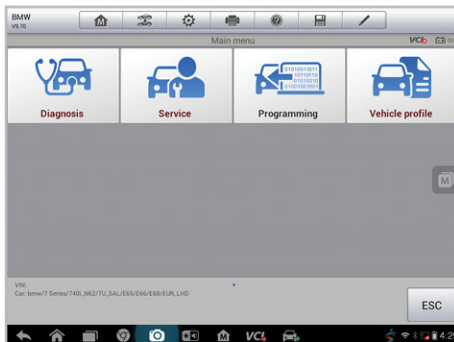

SUPERIOR PRODUCT

SYSTEM COVERAGE

The most extensive system coverage for than 80 US domestic, Asian and European makes and models.
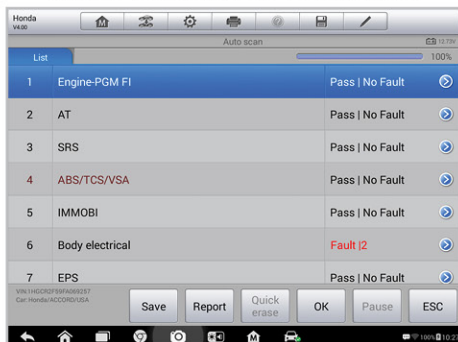

OE LEVEL FUNCTIONS

Comprehensive OE-Level diagnostics & OBDII services. Advanced ECU coding and programming for pro tools.
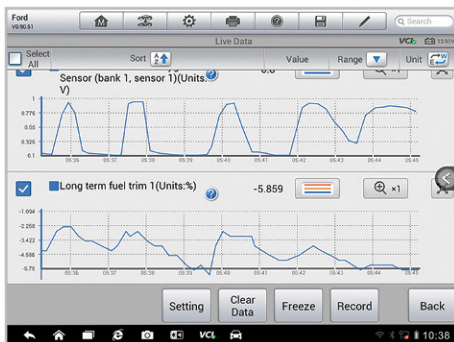

EXCEPTIONAL FUNCTIONALITY

OBDII DIAGNOSTIC CODES

Comprehensive vehicle diagnostics and analysis, live data, actuation tests, adaptations and ECU information.

FREEZE FRAME DATA

Display DTC description and data values associated with the specific DTC at the moment it occured.

MAXISYS

COMPLETE DIAGNOSTIC SYSTEM

The MaxiSYS and MaxiSYS Pro diagnostic packages provide OE-level coverage for professional technicians who demand superior tool features and performance for their investment. MaxiSYS tools offer double the speed with A9 quad-core 1.4GHz processors and faster navigation with the Android Operating System. MaxiSYS delivers smart technology for smarter repair diagnostics.

MAXISYS - MS908

Developed with the highest level of software DNA to define Autel's complete diagnostics. With a large 9.7" LED capacitive touch screen and higher level of powerful hardware performance, the MaxiSYS has evolved far beyond our first generation tool capabilities to offer complete diagnostic solutions for smarter repairs. Able to utilize the same MaxiVIDEO and MaxiSCOPE optional accessories, the MaxiSYS is the ideal solution to manage your smarter repair jobs with one ultra mobile and wireless tool.

MAXISYS PRO - MS908P

The MaxiSYS Pro was developed for customers looking for the same powerfull level diagnostic performance and extensive OE-level functions as the MaxiSYS, with the additional programming features of a J2534 pass-thru programming device. The Autel J2534 also performs as a bluetooth VCI to offer the same quick vehicle connection.

SHOP MANAGER
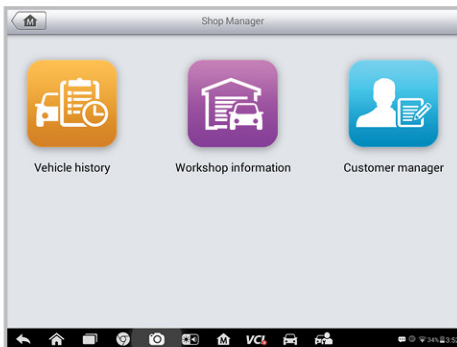

Easily organize repair information to streamline communication between multiple technicians.

ON-TOOL TECH SUPPORT

Utilize the convenient TeamVierwer application to remotely access realtime support.

AUTEL.COM UPDATES PROVIDES THE LATEST VEHICLE COVERAGE AND DIAGNOSTIC CAPABILITIES

MAXI**SYS** MS906

AFFORDABLE DIAGNOSTIC SCAN TABLETS

More affordable than all predecessor eight inch scan tablets, the MaxiSYS MS906TS and MS906BT provide powerful diagnostic features for technicians who demand the most cost effective performance for their investment. These newest generation MaxiSYS tools utilize 1.3GHz + 1.7GHz processors and are equipped with faster android based software to offer extensive OE-level vehicle coverage.

MOST AFFORDABLE

MaxiSYS MS906BT combines powerful software with affordable wireless hardware for price conscious technicians that want the most tool performance for their investment. MaxiSYS provides a cost effective solution for shop information organization and repair diagnostics management.

TPMS & DIAGNOSTICS

MaxiSYS MS906TS provides the same features as MS906BT and is an industry first combining advanced diagnostics with complete TPMS functionality. Now technicians don't need a secondary TPMS device to trigger, program, or relearn Autel MX-Sensors and quickly test all vehicle systems with one ultra-fast, lightweight, wireless, touch screen tablet.

MAXISYS

THE SYSTEM BEHIND MAXISYS

Your MaxiSYS software system comes installed with the MaxiSYS suite of applications. These apps are designed to provide techs with superior data organization and diagnostic support technology. Autel combines modern innovation and support technology to offer the latest software breakthroughs.

BLUETOOTH OBDII VCI

Enhanced wireless connectivity between scan tool and Vehicle Communication Interface (VCI) device, allowing greater mobility to complete repairs quickly and easily.

POWERFUL HARDWARE

MaxiSYS is the quickest diagnostic tool on the market, utilizing a larger processor and the fastest communication protocols. Featuring intelligent power saving for extended battery life.

PRINTER SETUP

Prints recorded data anytime and anywhere. Print from the tablet scan tool via a Windows PC after installing PC Suite software.

MAXICLOUD

The industry's first cloud-based online community puts you in touch with the latest tips and expertise from technicians around the world. It also saves customer and vehicle records, scanner data, and technician notes which are available on demand 24/7.

AUTEL MAXISYS
SYSTEM SUITE

ANDROID SOFTWARE

MaxiSYS multitasking Android Operating System combined with OE-level diagnostic coverage. AutoVIN technology provides fast and precise vehicel identification. VCI automatically connects with tool via Bluetooth.

MAXIFIX

Cloud-based MaxiFIX provides a network platform to communicate with other professional technicians and provides access to a large database of repairs, diagnostic tips and procedures.

SHOP MANAGER

Single organization to multi-task manage workshop operations. Designed to keep all project data files, customer information and vehicle ID and project records.
DATA LOGGING

Interactive recording sessions save project data issues and enable direct contact with Autel tech support for first-hand troubleshooting of diagnostic bugs and errors.
REMOTE SUPPORT

Tech support can remotely log into the device and walk you through complicated vehicle diagnostics. This real-time support provides quick and accurate solutions with a simple transfer of data logs from your device.
PRINT SCAN REPORTS

Now you have all the functions you need to preform pre and post scan reports after scanning all modules, then easily print and show the customer or submit to the insurance carrier for project approval.

OPTIONAL ACCESSORIES

MAXISCOPE SERVICES
Read and display electronic component test signals in high resolution, clear and simple color waveforms.

MAXIVIDEO SERVICES

Inspect small confined areas with a bright LED, then store and print high resolution images (still and video)

MAXISCOPE OSCILLOSCOPE

This 4 channel digital oscilloscope adds new compact scan functions to the powerful MaxiSYS diagnostics. MaxiSCOPE allows you to measure and test all modern vehicle electrical and electronic components and circuits. Featuring a high speed sampling rate from 80MS/s to 20MS/s and incredible bandwidth of 20MHz, MaxiSCOPE makes viewing waveforms on your high resolution color screen scan tablet screen clear and simple.

MP408

FEATURES

- One-click auto setup of voltage scale and time base
- Works on all advanced sensors and circuits including LIN, CAN and FlexRay data bus systems
- Reads and displays electrical signals in waveforms
- Allows manual editing of measurement parameter display
- Records and plays back waveform data
- Color coded 4-channel control panel
- Intuitive UI design features easy trigger point adjustment and real time scale information display
- USB connection power supply
- Free software updates
- Portable and strong housing with protective rubber boot

MAXISYS SUPPORT

INCLUDED WARRANTY / TOTAL CARE PROGRAM (TCP)

TCP program is now only available for MaxiSYS tools, all other Autel tools currently offer FREE software updates.

WARRANTY

All MaxiSYS tools include one year of hardware warranty and one year of free software updates after tool purchase and registration. After the initial year expires, the customer may purchase an additional one year Total Care Program (TCP) subscription / update card to extend tool warranty and software coverage.

TCP EXTENDED WARRANTY

Purchasing the TCP extended warranty for your registered tool provides several benefits

- One-year hardware Limited Warranty extension
  - Discounted service fee for battery replacement / head unit (tablet) replacement
  - Limited Warranty covers device failure. It does not cover damage caused by user misuse or mishandling. (Refer to the Limited Warranty page for details on Autel standard warranty policy.)
- One-year subscription to download free tool software updates
  - Coverage for all vehicles - extended coverage for older vehicles / updated coverage for newer vehicles
  - Newest tool software - current tool functionality and updated diagnostic features for proper testing
- Dedicated customer support from our ASE-Certified Technical Support staff.
  - Provides support for all questions regarding Autel tools and their use within coverage.
  - Provides an Autel issued Return Goods Authorization (RGA) for defective or malfunctioning tool.

SYSTEM UPDATES

TOOL REGISTRATION AND UPDATE INSTRUCTIONS

We highly recommend you update your scan tools before every project to ensure the most current vehicle coverage. All MaxiSYS tools must be registered to download software updates. You must be a registered Autel user to register a tool. To register a FREE Autel user ID, log into **pro.auteltech.com** and click on **Create an Autel ID**, then follow the registration procedures to register all your tools under one user ID.

REGISTER YOUR TOOL

PRO.AUTELTECH.COM
Sign into your Autel user ID to check tool status. If registered and within subscription, proceed with updates.

REGISTER TOOL

Click on **Product Registration**, select the tool to register from the drop-down menu, enter the Serial Number and Password then click Submit. Locate the serial number and password by turning on your tool. Press the MaxiSYS icon, then press the Settings icon. Under **About**, locate the unit's serial number and password.

REGISTER TCP

If the tool's software has expired, you can purchase a Total Care Program (TCP) subscription from the Autel website or your tool supplier. Redeem the TCP card while logged into your **pro.aultech.com** Autel user ID account and click on **Redeem** under **Account**.

UPDATE YOUR SOFTWARE

SYSTEM UPDATES

The tool must be connected to the internet to download and install updates. Confirm your tool is connected to your WiFi router.

1 - Turn on the MaxiSYS tablet.
2 - Tap the MaxiSYS icon on the screen or tap on the [M] icon at the bottom of the screen to navigate to the main menu.
3 - If updates are available, a red circle above the Update button will display the number of software updates ready to install.
4 - Tap the Update button to navigate to the update listing menu to choose which updates you want to install.

INSTALL UPDATES

Available downloads will display. Make certain to download any system update listed. Tap Update tab to start the download. Only download the updates for vehicle manufacturer you service.

Tap only one or two updates at a time to ensure each update is correctly downloaded and installed. It is not advised to tap the Download All button.

A brief description of the update is displayed. Tap the ℹ️ icon to view detailed info about that vehicle update including software fixes and special functions additions.

UPDATE THE VCI

Depending on your Maxisys unit, your VCI will either be silver or black. Using the supplied USB cable, attach the VCI to the Maxisys tablet. Tap the VCI icon on the bottom of the tablet display.

From the VCI manager screen, tap update on the right-hand side of the display. The tool will connect with the Autel server and display a **Update Now** button if an update is available. Tap **Update Now** and wait for the update to complete. Once completed, unplug the VCI from the tablet and VCI will reboot.

TROUBLESHOOTING

The MaxiSYS should automatically discover your Wifi connection. If this did not happen you can tap the Settings button, then tap the Systems Setings, then check the Wireless & Network setting. Ensure that WiFi is On.

TS608

COMPLETE TPMS & SERVICE TOOL COMBINATION

An industry first combination of complete TPMS and advanced service functions in a 7-inch tablet scan tool, equipped with the newest VCI mini for wireless communication. Complete repair projects faster with comprehensive TPMS, special service and all systems diagnostics in the same Android-based smooth navigation software as the rest of the MaxiSYS tool line. The MaxiTPMS TS608 provides the highest level of TPMS and service diagnostics setting new standards for service tools.

THREE TOOLS IN ONE

The innovative TS608 combination service tool provides three mode options from the main screen. This quicker tool navigation decreases repair time by providing easier and faster access to a wider variety of tool features, instead of switching between multiple specialty tools to complete projects.

| COMPLETE TPMS DIAGNOSTICS | SPECIAL SERVICE FEATURES | ALL SYSTEMS DIAGNOSTICS |

BLUETOOTH MAXI-VCI MINI

Latest compact-size Wireless Bluetooth MaxiVCI Mini OBDII connector, transmits vehicle data to the tablet without a physical connection. Enhanced wireless bluetooth connectivity between the tablet and VCI device allows greater service mobility and easier TPMS sensor interaction while the tablet remains connected to the vehicle for data transmission.

AUTEL® MaxiTPMS™

MAXICHECK

DIAGNOSTIC SERVICE TOOLS

MaxiCHECK service tools offer the most vehicle coverage and affordability for your repairs. Autel service tools provide easily followed on screen instruction to access all functions, read and clear vehicle codes and view live data. Whether your shop fixes transmissions or brakes, replaces fenders or mufflers, you can easily find a MaxiCHECK service tool that is the perfect combination of functions to service your individual specialized systems.

DOWNLOAD FREE SOFTWARE
ONE YEAR LIMITED WARRANTY

ADVANCED SERVICE TOOLS

The MD808P and MX808 are the most multifunctional scan tools offering more advanced service features and troubleshoot either the basic four systems or all systems. The wireless MaxiTPMS TS608 offers the same complete level service functions as the MaxiCHECK MX808, with added complete TPMS features.

SPECIALTY TOOLS

The OLS301 and EBS301 are based on Autel's latest diagnostic platform to make the navigation simple and easy to use so the technician can provide quick and easy solutions to everyday tasks in the workshop that cannot be completed without the use of a diagnostic tool.

MD808 PRO

MAXIDIAG PRO SCAN TOOL

The MaxiDIAG MD808 Pro is the most affordable service and professional scan tool. This 2-in-1 combination tool allows for the convenient ability to read codes and scan vehicle modules.

DOWNLOAD FREE SOFTWARE
ONE YEAR LIMITED WARRANTY

FEATURES

- Read/ Test/ Clear trouble codes in ALL Systems: **ABS, SRS, ENGINE, TRANSMISSION +**
- Auto Scan all major systems
- Live Data to test individual systems
- Communicate with door modules, body controllers, electronic modules
- Support all OBDII protocols and 10 test modes including Freeze Frame, Enhanced Mode 6, Vehicle Info, I/M Readiness, On-Board Monitor and Component Tests
- Graph, record and playback freeze frame data
- Read and clear trouble codes, control and test BMS / EPB /SAS/ Oil Light Reset I DPF systems
- Diesel particulate/ including forced regeneration
- Reset steering angle sensor (SAS) functionality
- Reset oil service and battery registration
- Resets Battery Monitoring System
- Reset service mileage and service intervals
- Perform OLS / oil service resets
- Set inspection 1 & 2 service intervals
- Opens and closes EPB (electronic brake calipers) for pad removal and service
- Read and clear EPB/SBC trouble codes
- Diagnose EPB/SBC (Sensotronic Brake Control) caliper functionality with bi-directional control
- Perform 02 monitor, on-board monitor, I/M readiness and component testing

DIGITAL FILES

The Autel MaxiVIDEO digital inspection scopes feature the ability to record either still images or video segments or offer the capability to stream digital video directly to your computer with the supplied USB cable. These digital files can be stored on the video scope internal flash memory or the removeable Micro SD card (optional) or saved to a computer via the mini USB connector.

VIEWING FEATURES

These ergonomic and easy to use digital inspection scopes feature an auto focus and 5x digital zoom for increased viewing options while operating in small areas. The camera heads offer durable safety with the oil and scratch resistant tempered glass lens allowing a viewing distance as close as 1 inch with crystal clear output.

REPLACEMENT HEADS: (MSRP-US$)

Two size replacement camera heads with flexible cable. Compatible with all Autel MaxiVIDEO tools.

AUTEL®
AUTOMOTIVE INTELLIGENCE

MAXISYS™ MaxiTPMS® MaxiCheck™ AutoLink® MaxiVideo®

LIMITED WARRANTY

The Autel Limited Warranty covers all defects in workmanship or materials and normal wear items for the lifetime of the original, registered tool owner. Dated sales receipt or invoice must be provided to honor Autel warranty

STANDARD POLICY

Autel warrants to the original end-user customer that its products are free from defects in material and workmanship for a specified period of time depending on product. Autel, will at its discretion, either repair or replace warranted products. Replaced products will either be new or recertified. All recertified products will be tested to ensure their hardware and software are functionally equivalent to new products. Do not open Autel products. Opening an Autel product may cause damage to the tool that is not covered by this limited warranty. Only Autel should service Autel tools. This limited warranty covers only repair or replacement of Autel products, it does not cover any damages or losses of any kind resulting from use or misuse of product.

The limited warranty covers only device failure. It does not cover any damage to the product (including but not limited to cracked screen, broken case, chemical exposure or liquid damage) as a result of accident, abuse, misuse, natural disaster, insufficient or excessive electrical supply, abnormal mechanical or environmental conditions or unauthorized disassembly, repair or modification. This warranty does not apply to consumable parts, such as batteries or protective coatings that are designed to diminish over time, unless failure has occurred due to a defect in materials or workmanship. This limited warranty shall not apply if the product was not used in accordance with accompanying instructions or intended use. This limited warranty does not apply to any product with an altered or removed original identification number or if Autel receives information from relevant public authorities that the product has been stolen.

There is no service charge if the tool is covered under the limited warranty or if the warranty has been extended under the Autel Total Care Program (TCP). Refer to the Autel MaxiSYS Support page for details on replacement part coverage under initial year warranty and TCP extended warranty. Autel can replace batteries on out-of-warranty tools for a service fee. Contact Autel Technical Support to request a Return Goods Authorization (RGA) number to send the tool for battery replacement.

SERVICE PROCEDURE

A defective product may be returned to Autel only after obtaining a Return Goods Authorization (RGA) number from Autel. If any customer has questions or believes it necessary to return the tool for repair, contact your local distributor or Autel technical support to obtain an RGA number and instructions to send the tool to an Autel RGA department for service. The end-user is responsible for the cost of insuring and shipping to Autel. Tools must be properly packaged to prevent damage during transit. Autel will cover shipping cost of the repaired or replacement tool with the same delivery speed by which it was sent in to Autel. The Autel RGA number must be prominently displayed on the outside of the package. Shipments received by Autel without the RGA number prominently displayed on the package exterior will be returned unopened. Autel can not guarantee the security of a unit that is shipped without an Autel-issued RGA.

LIMITED WARRANTY

The **MaxiSYS Elite** is covered under the Autel Limited Warranty for **TWO (2) YEARS** from date of tool registration.
The following tools and accessories are covered under the Autel Limited Warranty for **ONE (1) YEAR** from date of tool purchase.
